

01. Attendance

1.1 Minimum attendance and calculation

Clause 1.1.1 - Governing rule. The ordinary minimum attendance is 75 percent in each course. Cancelled classes are excluded from the denominator. The ordinary threshold applies separately to each registered course; an average across courses cannot cure a shortage in one course.

Clause 1.1.2 - Worked review case. A timetable export counts two cancelled lectures as classes held. The Academic Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 1.1.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-01-01. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 1.1.4 - Records and review. The case file must link the request concerning minimum attendance and calculation, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Academic Office.

Cross-reference: apply this procedure with section 1.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

01. Attendance

1.2 Registers and corrections

Clause 1.2.1 - Governing rule. This procedure is administered by the Academic Office under the attendance section. Faculty close the electronic register at the end of each teaching week. A correction must identify the class date, the disputed entry and independent evidence such as a laboratory sign-in sheet.

Clause 1.2.2 - Worked review case. A signed laboratory sheet conflicts with the electronic register. The Academic Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 1.2.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-01-02. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 1.2.4 - Records and review. The case file must link the request concerning registers and corrections, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Academic Office.

Cross-reference: apply this procedure with section 1.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

01. Attendance

1.3 Approved field visits

Clause 1.3.1 - Governing rule. This procedure is administered by the Academic Office under the attendance section. A curriculum-linked field visit counts as attendance only when the itinerary was approved before travel and the supervising teacher certifies participation. Private travel is not an academic visit.

Clause 1.3.2 - Worked review case. A field visit was approved but the participation certificate is missing. The Academic Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 1.3.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-01-03. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 1.3.4 - Records and review. The case file must link the request concerning approved field visits, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Academic Office.

Cross-reference: apply this procedure with section 1.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

01. Attendance

1.4 Late course registration

Clause 1.4.1 - Governing rule. This procedure is administered by the Academic Office under the attendance section. For an approved late admission, the register begins on the formal registration date. A student who delayed registration without approval remains responsible for sessions held before completing the form.

Clause 1.4.2 - Worked review case. A late admission has a formal registration date after teaching began. The Academic Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 1.4.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-01-04. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 1.4.4 - Records and review. The case file must link the request concerning late course registration, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Academic Office.

Cross-reference: apply this procedure with section 1.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

01. Attendance

1.5 Attendance warning notices

Clause 1.5.1 - Governing rule. This procedure is administered by the Academic Office under the attendance section. The adviser must issue a written warning when the provisional register shows a shortage. A warning supports early intervention and does not amend the eligibility threshold or guarantee condonation.

Clause 1.5.2 - Worked review case. A student receives a shortage warning while a correction is pending. The Academic Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 1.5.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-01-05. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 1.5.4 - Records and review. The case file must link the request concerning attendance warning notices, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Academic Office.

Cross-reference: apply this procedure with section 1.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

02. Examinations

2.1 Entry and identity checks

Clause 2.1.1 - Governing rule. Examination entry closes 30 minutes after the published start time. Candidates must present an admit card and college identity card. An invigilator records late arrival against the room register; arriving within the permitted window never extends the scheduled finish time.

Clause 2.1.2 - Worked review case. A candidate arrives inside the admission window without an admit card. The Examination Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 2.1.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-02-01. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 2.1.4 - Records and review. The case file must link the request concerning entry and identity checks, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Examination Office.

Cross-reference: apply this procedure with section 2.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

02. Examinations

2.2 Examination registration

Clause 2.2.1 - Governing rule. This procedure is administered by the Examination Office under the examinations section. A candidate must have active course registration and meet the applicable attendance and assessment conditions. An application awaiting a decision is not equivalent to an approved examination registration.

Clause 2.2.2 - Worked review case. A candidate has paid fees but lacks the required internal marks. The Examination Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 2.2.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-02-02. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 2.2.4 - Records and review. The case file must link the request concerning examination registration, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Examination Office.

Cross-reference: apply this procedure with section 2.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

02. Examinations

2.3 Timetable clashes

Clause 2.3.1 - Governing rule. This procedure is administered by the Examination Office under the examinations section. Report two examinations scheduled for the same sitting with both course codes. Only the Examination Office may approve an alternative sitting; students must not arrange private examinations with individual teachers.

Clause 2.3.2 - Worked review case. Two registered papers appear in the same examination sitting. The Examination Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 2.3.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-02-03. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 2.3.4 - Records and review. The case file must link the request concerning timetable clashes, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Examination Office.

Cross-reference: apply this procedure with section 2.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

02. Examinations

2.4 Permitted examination materials

Clause 2.4.1 - Governing rule. This procedure is administered by the Examination Office under the examinations section. The paper cover specifies permitted calculators and reference tables. Internet-enabled devices, unauthorised notes and communication with another candidate are prohibited unless an approved accommodation expressly permits a device.

Clause 2.4.2 - Worked review case. A calculator has communication features absent from the permitted list. The Examination Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 2.4.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-02-04. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 2.4.4 - Records and review. The case file must link the request concerning permitted examination materials, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Examination Office.

Cross-reference: apply this procedure with section 2.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

02. Examinations

2.5 Answer-book identification

Clause 2.5.1 - Governing rule. This procedure is administered by the Examination Office under the examinations section. Write the candidate number on the cover and attach all supplementary sheets before submission. Do not add a personal message, identifying mark or appeal for marks inside the answer script.

Clause 2.5.2 - Worked review case. A supplementary sheet carries no candidate number. The Examination Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 2.5.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-02-05. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 2.5.4 - Records and review. The case file must link the request concerning answer-book identification, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Examination Office.

Cross-reference: apply this procedure with section 2.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

03. Internal Assessment

3.1 Internal marks eligibility

Clause 3.1.1 - Governing rule. The internal assessment minimum is 16 marks out of 40. Both the internal marks minimum and the separate attendance requirement must be satisfied. A student who meets attendance but misses the marks minimum remains ineligible on the assessment condition.

Clause 3.1.2 - Worked review case. Attendance eligibility is met but the internal score is below the minimum. The Course Coordinator must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 3.1.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-03-01. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 3.1.4 - Records and review. The case file must link the request concerning internal marks eligibility, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Course Coordinator.

Cross-reference: apply this procedure with section 3.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

03. Internal Assessment

3.2 Published assessment plan

Clause 3.2.1 - Governing rule. This procedure is administered by the Course Coordinator under the internal assessment section. Publish component weights and submission dates before the first assessment. Changes after work is assigned require a reasoned departmental approval and a notice giving all affected students equivalent preparation time.

Clause 3.2.2 - Worked review case. An assessment weight is changed after students submit the work. The Course Coordinator must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 3.2.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-03-02. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 3.2.4 - Records and review. The case file must link the request concerning published assessment plan, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Course Coordinator.

Cross-reference: apply this procedure with section 3.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

03. Internal Assessment

3.3 Class tests

Clause 3.3.1 - Governing rule. This procedure is administered by the Course Coordinator under the internal assessment section. Class tests assess the declared learning outcomes using a common marking scheme. Students must receive feedback identifying the missed criterion, rather than only a total score without explanation.

Clause 3.3.2 - Worked review case. Two markers apply different criteria to the same test question. The Course Coordinator must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 3.3.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-03-03. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 3.3.4 - Records and review. The case file must link the request concerning class tests, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Course Coordinator.

Cross-reference: apply this procedure with section 3.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

03. Internal Assessment

3.4 Assignment authenticity

Clause 3.4.1 - Governing rule. This procedure is administered by the Course Coordinator under the internal assessment section. Group discussion is allowed when the brief permits it, but an individual submission must identify borrowed work. A suspected authenticity concern requires a documented review before any penalty is applied.

Clause 3.4.2 - Worked review case. An individual assignment reproduces unacknowledged group material. The Course Coordinator must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 3.4.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-03-04. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 3.4.4 - Records and review. The case file must link the request concerning assignment authenticity, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Course Coordinator.

Cross-reference: apply this procedure with section 3.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

03. Internal Assessment

3.5 Laboratory and seminar marks

Clause 3.5.1 - Governing rule. This procedure is administered by the Course Coordinator under the internal assessment section. Laboratory marks reflect preparation, safe practice, results and interpretation. Seminar marks use the published presentation rubric; attendance at a seminar alone does not earn the full component score.

Clause 3.5.2 - Worked review case. A seminar participant asks for full marks based on presence alone. The Course Coordinator must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 3.5.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-03-05. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 3.5.4 - Records and review. The case file must link the request concerning laboratory and seminar marks, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Course Coordinator.

Cross-reference: apply this procedure with section 3.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

04. Condonation

4.1 Permitted range and approval

Clause 4.1.1 - Governing rule. Medical condonation may be considered from 70 percent to below 75 percent attendance, subject to recorded department approval. Condonation is discretionary relief for a documented eligible shortage. An application does not itself establish examination eligibility, and a shortage below the permitted lower bound cannot be approved under this scheme.

Clause 4.1.2 - Worked review case. A course shortage falls below the scheme's lower bound. The Dean Academic must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 4.1.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-04-01. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 4.1.4 - Records and review. The case file must link the request concerning permitted range and approval, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Dean Academic.

Cross-reference: apply this procedure with section 4.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

04. Condonation

4.2 Medical evidence

Clause 4.2.1 - Governing rule. This procedure is administered by the Dean Academic under the condonation section. A medical certificate must identify the period of illness and the issuing practitioner. The office may seek verification through an authorised confidential channel; staff must not publicly circulate a student's diagnosis.

Clause 4.2.2 - Worked review case. Two certificates give conflicting dates for the same illness. The Dean Academic must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 4.2.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-04-02. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 4.2.4 - Records and review. The case file must link the request concerning medical evidence, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Dean Academic.

Cross-reference: apply this procedure with section 4.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

04. Condonation

4.3 Course-wise shortage statement

Clause 4.3.1 - Governing rule. This procedure is administered by the Dean Academic under the condonation section. Attach a separate calculation for every affected course showing sessions held, sessions attended and the shortage. A single aggregate percentage cannot replace course-wise evidence.

Clause 4.3.2 - Worked review case. An aggregate attendance figure conceals one ineligible course. The Dean Academic must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 4.3.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-04-03. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 4.3.4 - Records and review. The case file must link the request concerning course-wise shortage statement, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Dean Academic.

Cross-reference: apply this procedure with section 4.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

04. Condonation

4.4 Adviser recommendation

Clause 4.4.1 - Governing rule. This procedure is administered by the Dean Academic under the condonation section. The adviser records the academic circumstances and checks the attendance calculation. A recommendation is evidence for the decision-maker and is not a delegated power to grant relief.

Clause 4.4.2 - Worked review case. An adviser recommends relief without checking the register. The Dean Academic must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 4.4.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-04-04. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 4.4.4 - Records and review. The case file must link the request concerning adviser recommendation, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Dean Academic.

Cross-reference: apply this procedure with section 4.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

04. Condonation

4.5 Reasoned decision

Clause 4.5.1 - Governing rule. This procedure is administered by the Dean Academic under the condonation section. The decision must identify each approved course and the basis for relief. It must expressly reject any ineligible course rather than using an ambiguous blanket phrase such as all subjects approved.

Clause 4.5.2 - Worked review case. A decision letter fails to identify which courses were approved. The Dean Academic must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 4.5.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-04-05. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 4.5.4 - Records and review. The case file must link the request concerning reasoned decision, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Dean Academic.

Cross-reference: apply this procedure with section 4.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

05. Fees

5.1 Refund processing

Clause 5.1.1 - Governing rule. Complete refund applications are processed within 15 working days. The refund application must include the payment receipt, withdrawal acknowledgement and verified bank details. Processing time starts when the application is complete; the approved fee schedule determines the amount.

Clause 5.1.2 - Worked review case. A refund request has a receipt but no withdrawal acknowledgement. The Accounts Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 5.1.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-05-01. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 5.1.4 - Records and review. The case file must link the request concerning refund processing, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Accounts Office.

Cross-reference: apply this procedure with section 5.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

05. Fees

5.2 Payment reconciliation

Clause 5.2.1 - Governing rule. This procedure is administered by the Accounts Office under the fees section. Use the student's registration number and semester when reconciling a payment. A bank transfer screenshot is supporting evidence, while the accounts ledger and bank settlement establish receipt.

Clause 5.2.2 - Worked review case. One transfer reference appears against two student accounts. The Accounts Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 5.2.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-05-02. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 5.2.4 - Records and review. The case file must link the request concerning payment reconciliation, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Accounts Office.

Cross-reference: apply this procedure with section 5.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

05. Fees

5.3 Instalment arrangements

Clause 5.3.1 - Governing rule. This procedure is administered by the Accounts Office under the fees section. An instalment approval states the balance, due dates and consequences of default. An informal conversation with a staff member does not amend the published payment obligation.

Clause 5.3.2 - Worked review case. An instalment plan was discussed but never approved in writing. The Accounts Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 5.3.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-05-03. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 5.3.4 - Records and review. The case file must link the request concerning instalment arrangements, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Accounts Office.

Cross-reference: apply this procedure with section 5.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

05. Fees

5.4 Scholarship adjustments

Clause 5.4.1 - Governing rule. This procedure is administered by the Accounts Office under the fees section. Credit a scholarship only after receiving the sponsor's confirmed award and remittance details. A pending application may be noted but must not be recorded as money already received.

Clause 5.4.2 - Worked review case. A scholarship applicant records an expected award as paid. The Accounts Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 5.4.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-05-04. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 5.4.4 - Records and review. The case file must link the request concerning scholarship adjustments, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Accounts Office.

Cross-reference: apply this procedure with section 5.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

05. Fees

5.5 Disputed charges

Clause 5.5.1 - Governing rule. This procedure is administered by the Accounts Office under the fees section. A disputed charge must be linked to the fee notice or service record on which it is based. The finance officer gives a written explanation and corrects an unsupported duplicate charge.

Clause 5.5.2 - Worked review case. The ledger contains two charges for the same service. The Accounts Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 5.5.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-05-05. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 5.5.4 - Records and review. The case file must link the request concerning disputed charges, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Accounts Office.

Cross-reference: apply this procedure with section 5.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

06. Hostel

6.1 Visitors and departure time

Clause 6.1.1 - Governing rule. Ordinary hostel visitors must leave by 20:00; overnight stays require separate written approval. Visitors sign in at reception, carry identification and meet residents only in designated common areas. Overnight guests require a separate written approval; the ordinary visitor permission does not cover a stay.

Clause 6.1.2 - Worked review case. A daytime visitor asks to remain overnight. The Chief Warden must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 6.1.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-06-01. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 6.1.4 - Records and review. The case file must link the request concerning visitors and departure time, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Chief Warden.

Cross-reference: apply this procedure with section 6.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

06. Hostel

6.2 Room allocation

Clause 6.2.1 - Governing rule. This procedure is administered by the Chief Warden under the hostel section. Allocation depends on available capacity and the published priority list. An allotted room cannot be transferred privately to another student, even if no money is exchanged.

Clause 6.2.2 - Worked review case. Two residents privately exchange allocated rooms. The Chief Warden must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 6.2.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-06-02. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 6.2.4 - Records and review. The case file must link the request concerning room allocation, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Chief Warden.

Cross-reference: apply this procedure with section 6.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

06. Hostel

6.3 Room inventory

Clause 6.3.1 - Governing rule. This procedure is administered by the Chief Warden under the hostel section. Record keys, furniture and visible defects on arrival. Photographs may support the inventory, and both the resident and hostel representative acknowledge any later replacement or repair.

Clause 6.3.2 - Worked review case. A defect appears on an arrival photograph but not the inventory. The Chief Warden must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 6.3.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-06-03. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 6.3.4 - Records and review. The case file must link the request concerning room inventory, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Chief Warden.

Cross-reference: apply this procedure with section 6.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

06. Hostel

6.4 Quiet hours

Clause 6.4.1 - Governing rule. This procedure is administered by the Chief Warden under the hostel section. Residents must avoid amplified sound and disruptive gatherings during the published night quiet period. Essential maintenance is announced in advance whenever practicable and does not create a general exception for noise.

Clause 6.4.2 - Worked review case. A shared-space gathering continues during quiet hours. The Chief Warden must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 6.4.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-06-04. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 6.4.4 - Records and review. The case file must link the request concerning quiet hours, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Chief Warden.

Cross-reference: apply this procedure with section 6.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

06. Hostel

6.5 Electrical and fire safety

Clause 6.5.1 - Governing rule. This procedure is administered by the Chief Warden under the hostel section. Keep escape routes clear and use cooking appliances only in designated areas. A damaged socket must be isolated by qualified staff; residents must not attempt improvised repairs.

Clause 6.5.2 - Worked review case. A portable appliance is connected to a damaged socket. The Chief Warden must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 6.5.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-06-05. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 6.5.4 - Records and review. The case file must link the request concerning electrical and fire safety, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Chief Warden.

Cross-reference: apply this procedure with section 6.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

07. Library

7.1 Borrowing entitlement

Clause 7.1.1 - Governing rule. Undergraduate students may borrow 4 books for 14 calendar days, with at most 1 renewals when no reservation is pending. The loan period begins at issue and the due date appears on the receipt. A recalled item must be returned by the notified recall date; a loan entitlement does not override a valid recall.

Clause 7.1.2 - Worked review case. A borrowed title is recalled before its original due date. The Librarian must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 7.1.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-07-01. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 7.1.4 - Records and review. The case file must link the request concerning borrowing entitlement, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Librarian.

Cross-reference: apply this procedure with section 7.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

07. Library

7.2 Renewals and reservations

Clause 7.2.1 - Governing rule. This procedure is administered by the Librarian under the library section. Renewal is refused when another reader has an active reservation or the item belongs to a non-renewable category. A successful online request must show a revised due date before the borrower assumes an extension.

Clause 7.2.2 - Worked review case. A renewal request conflicts with another reader's reservation. The Librarian must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 7.2.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-07-02. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 7.2.4 - Records and review. The case file must link the request concerning renewals and reservations, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Librarian.

Cross-reference: apply this procedure with section 7.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

07. Library

7.3 Reference-room materials

Clause 7.3.1 - Governing rule. This procedure is administered by the Librarian under the library section. Reference books, rare holdings and designated examination papers remain in the supervised reading room. A photocopy or scan is subject to applicable permissions and handling restrictions.

Clause 7.3.2 - Worked review case. A reader asks to take an archival volume offsite. The Librarian must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 7.3.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-07-03. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 7.3.4 - Records and review. The case file must link the request concerning reference-room materials, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Librarian.

Cross-reference: apply this procedure with section 7.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

07. Library

7.4 Electronic resources

Clause 7.4.1 - Governing rule. This procedure is administered by the Librarian under the library section. Institutional subscriptions are for authorised individual academic use. Do not share access credentials, run bulk downloads or redistribute a publisher's collection to an external service.

Clause 7.4.2 - Worked review case. A subscription account shows automated bulk downloads. The Librarian must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 7.4.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-07-04. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 7.4.4 - Records and review. The case file must link the request concerning electronic resources, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Librarian.

Cross-reference: apply this procedure with section 7.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

07. Library

7.5 Lost or damaged items

Clause 7.5.1 - Governing rule. This procedure is administered by the Librarian under the library section. Report a lost item promptly with its accession number where available. The librarian assesses repair or replacement using the published schedule and records the basis for any recovery.

Clause 7.5.2 - Worked review case. A borrower returns an item with pre-existing damage. The Librarian must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 7.5.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-07-05. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 7.5.4 - Records and review. The case file must link the request concerning lost or damaged items, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Librarian.

Cross-reference: apply this procedure with section 7.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

08. Discipline

8.1 Respect and prohibited conduct

Clause 8.1.1 - Governing rule. A disciplinary appeal must be filed within 5 working days after the written decision is received. Harassment, threats, violence and retaliation are prohibited. A person may report a concern without first confronting the alleged offender, and immediate welfare assistance is separate from a disciplinary finding.

Clause 8.1.2 - Worked review case. A student reports threats and requests immediate welfare support. The Student Affairs Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 8.1.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-08-01. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 8.1.4 - Records and review. The case file must link the request concerning respect and prohibited conduct, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Student Affairs Office.

Cross-reference: apply this procedure with section 8.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

08. Discipline

8.2 Complaint intake

Clause 8.2.1 - Governing rule. This procedure is administered by the Student Affairs Office under the discipline section. Record the alleged event, approximate time, location and available witnesses. The receiving officer explains how the complaint will be handled and avoids promising a predetermined outcome.

Clause 8.2.2 - Worked review case. A complaint identifies an event but no exact time. The Student Affairs Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 8.2.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-08-02. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 8.2.4 - Records and review. The case file must link the request concerning complaint intake, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Student Affairs Office.

Cross-reference: apply this procedure with section 8.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

08. Discipline

8.3 Notice and response

Clause 8.3.1 - Governing rule. This procedure is administered by the Student Affairs Office under the discipline section. The notice identifies the alleged conduct and applicable rule, with a reasonable opportunity to respond. A vague request to explain bad behaviour is not an adequate statement of the allegation.

Clause 8.3.2 - Worked review case. A notice uses a vague allegation without naming the applicable rule. The Student Affairs Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 8.3.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-08-03. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 8.3.4 - Records and review. The case file must link the request concerning notice and response, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Student Affairs Office.

Cross-reference: apply this procedure with section 8.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

08. Discipline

8.4 Impartial hearing

Clause 8.4.1 - Governing rule. This procedure is administered by the Student Affairs Office under the discipline section. Panel members disclose conflicts and withdraw where impartiality is compromised. The hearing record distinguishes agreed facts, disputed accounts and the evidence relied upon.

Clause 8.4.2 - Worked review case. A panel member supervised a key witness. The Student Affairs Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 8.4.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-08-04. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 8.4.4 - Records and review. The case file must link the request concerning impartial hearing, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Student Affairs Office.

Cross-reference: apply this procedure with section 8.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

08. Discipline

8.5 Appeal grounds

Clause 8.5.1 - Governing rule. This procedure is administered by the Student Affairs Office under the discipline section. An appeal identifies a procedural defect, material error or relevant new evidence. The appeal body gives reasons for its outcome and does not treat the act of appealing as further misconduct.

Clause 8.5.2 - Worked review case. An appeal presents material evidence not previously available. The Student Affairs Office must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 8.5.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-08-05. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 8.5.4 - Records and review. The case file must link the request concerning appeal grounds, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Student Affairs Office.

Cross-reference: apply this procedure with section 8.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

09. IT and Laboratory

9.1 Account access

Clause 9.1.1 - Governing rule. A temporary laboratory account expires after 14 calendar days unless the project supervisor renews access in writing. Accounts are personal and access is limited to authorised academic duties. Multi-factor recovery must use the service desk's identity-check process; another student's credentials cannot substitute for an unavailable account.

Clause 9.1.2 - Worked review case. A learner asks a colleague to share a laboratory login. The Technical Services must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 9.1.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-09-01. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 9.1.4 - Records and review. The case file must link the request concerning account access, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Technical Services.

Cross-reference: apply this procedure with section 9.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

09. IT and Laboratory

9.2 Software licensing

Clause 9.2.1 - Governing rule. This procedure is administered by the Technical Services under the it and laboratory section. Install software only within the institution's licence and device permissions. A licence obtained for a teaching laboratory must not be copied to a commercial or unrelated personal environment.

Clause 9.2.2 - Worked review case. A teaching licence is proposed for an external commercial project. The Technical Services must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 9.2.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-09-02. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 9.2.4 - Records and review. The case file must link the request concerning software licensing, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Technical Services.

Cross-reference: apply this procedure with section 9.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

09. IT and Laboratory

9.3 Safety induction

Clause 9.3.1 - Governing rule. This procedure is administered by the Technical Services under the it and laboratory section. Complete the relevant induction before using laboratory equipment. A prior induction for one laboratory does not automatically cover unfamiliar machinery, chemicals or specialist hazards in another.

Clause 9.3.2 - Worked review case. A trained user moves to a laboratory with unfamiliar hazards. The Technical Services must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 9.3.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-09-03. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 9.3.4 - Records and review. The case file must link the request concerning safety induction, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Technical Services.

Cross-reference: apply this procedure with section 9.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

09. IT and Laboratory

9.4 Equipment booking

Clause 9.4.1 - Governing rule. This procedure is administered by the Technical Services under the it and laboratory section. A booking identifies the apparatus, trained operator and intended procedure. The supervisor may refuse an unsafe or incompatible activity even when a time slot is available.

Clause 9.4.2 - Worked review case. A reserved instrument is unsuitable for the proposed operation. The Technical Services must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 9.4.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-09-04. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 9.4.4 - Records and review. The case file must link the request concerning equipment booking, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Technical Services.

Cross-reference: apply this procedure with section 9.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

09. IT and Laboratory

9.5 Incident reporting

Clause 9.5.1 - Governing rule. This procedure is administered by the Technical Services under the it and laboratory section. Report an injury, spill, exposed credential or suspected compromise immediately. Preserve logs and evidence, and avoid restarting or modifying affected equipment unless safety requires it.

Clause 9.5.2 - Worked review case. A suspected breach coincides with missing device logs. The Technical Services must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 9.5.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-09-05. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 9.5.4 - Records and review. The case file must link the request concerning incident reporting, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Technical Services.

Cross-reference: apply this procedure with section 9.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

10. Miscellaneous Academic Policies

10.1 Academic advising

Clause 10.1.1 - Governing rule. A complete credit-transfer application should receive a decision within 10 working days after equivalence review begins. An adviser helps students plan a programme consistent with prerequisites and credit limits. Advice must identify when a formal approval is still required; an informal plan is not itself a registration change.

Clause 10.1.2 - Worked review case. An informal study plan conflicts with a course prerequisite. The Registrar must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 10.1.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-10-01. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 10.1.4 - Records and review. The case file must link the request concerning academic advising, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Registrar.

Cross-reference: apply this procedure with section 10.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

10. Miscellaneous Academic Policies

10.2 Course add-drop

Clause 10.2.1 - Governing rule. This procedure is administered by the Registrar under the miscellaneous academic policies section. An add-drop request identifies the course, proposed change and effect on the study plan. The department checks prerequisites and timetable conflicts before forwarding a decision to the registry.

Clause 10.2.2 - Worked review case. A requested course addition creates a timetable clash. The Registrar must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 10.2.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-10-02. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 10.2.4 - Records and review. The case file must link the request concerning course add-drop, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Registrar.

Cross-reference: apply this procedure with section 10.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

10. Miscellaneous Academic Policies

10.3 Credit transfer

Clause 10.3.1 - Governing rule. This procedure is administered by the Registrar under the miscellaneous academic policies section. A transfer request includes the originating institution's transcript and course outcomes. Credit is granted only after equivalence review and must identify the specific requirement it satisfies.

Clause 10.3.2 - Worked review case. A transfer syllabus has a similar title but different learning outcomes. The Registrar must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 10.3.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-10-03. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 10.3.4 - Records and review. The case file must link the request concerning credit transfer, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Registrar.

Cross-reference: apply this procedure with section 10.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

10. Miscellaneous Academic Policies

10.4 Research ethics

Clause 10.4.1 - Governing rule. This procedure is administered by the Registrar under the miscellaneous academic policies section. Obtain ethics approval before recruiting human participants or collecting covered data. A supervisor's encouragement is not a substitute for approval, and material protocol changes require review.

Clause 10.4.2 - Worked review case. Participant recruitment began before ethics approval. The Registrar must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 10.4.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-10-04. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 10.4.4 - Records and review. The case file must link the request concerning research ethics, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Registrar.

Cross-reference: apply this procedure with section 10.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.

10. Miscellaneous Academic Policies

10.5 Accessible learning

Clause 10.5.1 - Governing rule. This procedure is administered by the Registrar under the miscellaneous academic policies section. An access plan records agreed adjustments and responsible contacts without unnecessary disclosure of medical details. Adjustments support access while preserving the stated learning outcomes.

Clause 10.5.2 - Worked review case. A learning adjustment was communicated without its confidentiality restrictions. The Registrar must resolve the specific discrepancy using the governing rule above. Preserve the original evidence, identify what remains disputed and communicate the reasoned result. An informal assurance cannot replace the required record or permission.

Clause 10.5.3 - Administration in this edition. Version 2025-50 assigns this procedure reference 50-10-05. A complete request normally receives an administrative response within 10 working days. An explicit subject-specific deadline takes precedence. Exceptional changes require recorded department approval.

Clause 10.5.4 - Records and review. The case file must link the request concerning accessible learning, the source record and the decision. A factual-correction request should identify the disputed entry within 5 working days of notification, subject to any specific appeal provision. The responsible record custodian is the Registrar.

Cross-reference: apply this procedure with section 10.1 of version 2025-50. Rules in other topics remain separate conditions. This is fictional manual-test material, not an official institution policy.
